d.achterberg@example.com | 555-0199 | Denver, CO

SUMMARY

Backend engineer with 10 years of work on logistics and routing systems.

EXPERIENCE

Lead Backend Engineer

May 2022 - Present

Summitline Routing, Denver, CO

Lead the routing platform team of 7 engineers.

- Rewrote the route optimizer in Rust; plans compute 5 times faster
- Cut cloud spend by \$410,000 a year with spot instances
- Routing project 1: delivered milestone 1 with 11 test cases
- Routing project 2: delivered milestone 2 with 12 test cases
- Routing project 3: delivered milestone 3 with 13 test cases
- Routing project 4: delivered milestone 4 with 14 test cases
- Routing project 5: delivered milestone 5 with 15 test cases
- Routing project 6: delivered milestone 6 with 16 test cases
- Routing project 7: delivered milestone 7 with 17 test cases
- Routing project 8: delivered milestone 8 with 18 test cases
- Routing project 9: delivered milestone 9 with 19 test cases
- Routing project 10: delivered milestone 10 with 20 test cases
- Routing project 11: delivered milestone 11 with 21 test cases
- Routing project 12: delivered milestone 12 with 22 test cases
- Routing project 13: delivered milestone 13 with 23 test cases
- Routing project 14: delivered milestone 14 with 24 test cases
- Routing project 15: delivered milestone 15 with 25 test cases
- Routing project 16: delivered milestone 16 with 26 test cases

Senior Backend Engineer

Feb 2018 - Apr 2022

Kestrel Freightworks, Boulder, CO

- Built the shipment tracking API that serves 2,000 requests per second
- Tracking project 1: delivered milestone 1 with 11 test cases
- Tracking project 2: delivered milestone 2 with 12 test cases
- Tracking project 3: delivered milestone 3 with 13 test cases
- Tracking project 4: delivered milestone 4 with 14 test cases
- Tracking project 5: delivered milestone 5 with 15 test cases
- Tracking project 6: delivered milestone 6 with 16 test cases
- Tracking project 7: delivered milestone 7 with 17 test cases
- Tracking project 8: delivered milestone 8 with 18 test cases
- Tracking project 9: delivered milestone 9 with 19 test cases
- Tracking project 10: delivered milestone 10 with 20 test cases
- Tracking project 11: delivered milestone 11 with 21 test cases
- Tracking project 12: delivered milestone 12 with 22 test cases
- Tracking project 13: delivered milestone 13 with 23 test cases
- Tracking project 14: delivered milestone 14 with 24 test cases
- Tracking project 15: delivered milestone 15 with 25 test cases
- Tracking project 16: delivered milestone 16 with 26 test cases
- Tracking project 17: delivered milestone 17 with 27 test cases
- Tracking project 18: delivered milestone 18 with 28 test cases
- Tracking project 19: delivered milestone 19 with 29 test cases
- Tracking project 20: delivered milestone 20 with 30 test cases
- Tracking project 21: delivered milestone 21 with 31 test cases
- Tracking project 22: delivered milestone 22 with 32 test cases

- Tracking project 23: delivered milestone 23 with 33 test cases
- Tracking project 24: delivered milestone 24 with 34 test cases
- Moved the event bus to Kafka without losing a single message
- Led the on-call rotation for 18 months

Software Engineer

Jul 2015 - Jan 2018

Alpenglow Maps, Golden, CO

- Wrote the tile cache that cut map load time by 40%

SKILLS

Rust, Go, PostgreSQL, Kafka, AWS

EDUCATION

B.S. Computer Engineering, Front Range Institute of Technology, 2015
