

Rowan Ellery (synthetic person)

rowan.ellery@example.com | 555-0141 | Bellevue, WA

SUMMARY

Engineering lead with 12 years in search, knowledge graphs and developer tools.

EXPERIENCE

- Sep 2025 – Present **Lumenfield Commerce Bellevue, WA**
Principal Engineer, AI Platform
Lead a group of 9 engineers that builds the AI platform for the marketplace search and seller tools.
Knowledge Graphs & Catalog Search: Designed a product knowledge graph of 40 million items that raised search conversion by 3.1%.
AI Coding & Workflow Agent: Led the prototype of an agentic platform that drafts code changes; 120 engineers used it in the first month.
Evaluation Harness: Built an offline evaluation suite of 2,400 queries that gates every ranking model release.
Hiring: Interviewed 60 candidates and hired 5 senior engineers.
- 2017 – 2025 **Graniteview Cloud Works Redmond, WA**
Senior Software Engineer
Owned the indexing service behind the developer documentation search.
Indexing Pipeline: Rebuilt the nightly index as a streaming job, cutting freshness lag from 24 hours to 15 minutes.
Reliability: Reduced paging incidents from 14 to 3 per quarter.
- 2013 – 2017 **Bramblewood Labs Seattle, WA**
Software Engineer
Built data tools for a 20-person research team.
Query Builder: Shipped a visual query builder used by 300 analysts.

SKILLS

Python, Java, Elasticsearch, Graph databases, Kubernetes, PyTorch

EDUCATION

M.S. Computer Science, Puget Ridge University, 2013
